

Scientific Medical Writer

Senior or Junior

We are offering a position of Scientific Medical Writer within the Stroke research team led by professor Robert Mikulik, MD, PhD, FESO. We are part of the International Clinical Research Center of St. Anne's University Hospital in Brno (FNUSA – ICRC). Our team is focused on development of new diagnostic, prevention and therapeutic methods for stroke. We cover the whole scope of translational research: basic, clinical and implementation as well. In our team 30 professionals (biologists, vets, clinical researchers, study nurses, PhD students, managers, IT developers, health promotion workers) work together to change the stroke practice. In 2018 we published in journals with highest impact factor (NEJM=72 and JAMA 44).

We create future of stroke care.

Be part of our team. Your papers can change the clinical practice overnight!

Full time or part time job; senior or junior position

- The junior position is a great chance for medical students!
- For senior position the medical writing experience is required

Start Date: Position is available immediately

About International Clinical Research Center

We are a top Central European research center with more than 200 researchers, new technologies and experience in using EU grant support. We are focused on the pathogenesis of diseases, including finding new methods, technologies and medicaments for effective prevention, early diagnostics and individualized treatment, mainly in the field of cardiology and neurology. Our partners are world-class research centers and universities. For more info, see <http://www.fnusa-icrc.org/en/>.
